SOUTH AMERICA DIARY — PART OF THE DIARY NETWORK
South America / Americas

Each logo links to its Network profile, with current website links and latest stories. The portfolio includes country, island and continental Diaries.

PARTNERSHIP STARTING POINTS

Find the fit. Make it useful.

Suggested pilots for discussion. Scope, pricing, dates and reporting are agreed in writing before publication.

01

Local discovery

Suggested pilot: 4 weeks

For local stays, experiences, guides, restaurants and services.

One agreed and labelled partner placement on one relevant Diary; a useful business introduction with an approved link; a closing report of measured placement clicks.

02

Destination story

Suggested pilot: 6 weeks

For tourism organisations, destinations and seasonal stories.

One commissioned, clearly labelled sponsored feature and one supporting placement on a chosen Diary; an agreed landing page and calls to action; a report of available measured views and clicks.

03

Network campaign

Suggested pilot: 8 weeks

For travel brands and services spanning several destinations.

A coordinated plan across three or more agreed Diaries; localised creative and a Network introduction; scheduled labelled placements; reporting broken down by destination and measured activity.

Founding-partner pilots are available by discussion. Newsletter distribution is not included. No minimum audience, search ranking, sales or bookings are guaranteed.

the diary network.

A CLEAR WAY OF WORKING

Useful partnerships. Honest reporting.

01

Share your brief

Your audience, destinations, timing, budget and goals.

02

Agree the scope

Written deliverables, pricing, creative approach, dates and reporting measures.

03

Publish with clarity

Fact-checked content, approved links and visible Sponsored or Paid partnership labels.

04

Report what happened

Dated placement evidence and measured activity, with limitations explained.

An audience we are building, not inventing.

We do not yet publish an independently verified network-wide readership total. Optional analytics exclude readers who do not opt in. Clicks can include repeat requests or bots and do not prove bookings or revenue. Commercial outcomes require their own evidence. No paid-campaign case studies are claimed.
